

AI Regulatory Research Tool Example for Law Firms and Compliance Professionals

The Tokenizer turned 20,000+ legal sources into instant regulatory research

The Tokenizer used CustomGPT.ai to power Token RegRadar, an AI regulatory research tool for law firms and digital assets professionals. It delivers hallucination-free answers across 80+ jurisdictions, drawn from three years of verified legal sources.

20,000+

Searchable legal sources

80+

Jurisdictions covered in real time

3 years

Of legal archives unlocked

THE CHALLENGE

A robust legal database that search couldn't unlock

The regulatory landscape for digital assets is complex and constantly changing. Over three years, The Tokenizer had built a legal database spanning more than 80 jurisdictions.

Conventional search couldn't make that information easy to access or act on. Professionals needed fast, accurate and clear regulatory answers, without hallucinations.

WHAT THE TOKENIZER NEEDED**Scale.**

One interface across 20,000+ diverse legal sources.

Zero tolerance for hallucinations.

Answers safe for compliance decisions.

Easy access.

A web tool professionals could use without technical friction.

HOW THE TOKENIZER SOLVED IT

Token RegRadar, built on CustomGPT.ai

Legal data made actionable.

CustomGPT.ai interprets complex legal texts and turns them into clear answers.

Anti-hallucination technology.

Answers come only from The Tokenizer's own verified database.

Built to scale.

Sitemap integration and secure data handling cover all 20,000+ sources, embedded on the website.

ABOUT THE TOKENIZER

The Tokenizer is a global data, information and news platform for the asset tokenization and digital assets industry. Headquartered in Denmark and led by co-founder and CEO Michael Juul Rugaard, it is a recognized thought leader in regulatory clarity for industry professionals.

AT A GLANCE

PRODUCT	COVERAGE	SECURITY
Token RegRadar, an AI regulatory research platform	20,000+ sources across 80+ jurisdictions	SOC 2 Type 2 and GDPR compliant platform

IS AI SAFE FOR LEGAL AND COMPLIANCE RESEARCH?

Hallucination-free answers, source grounding and jurisdiction coverage

- 1 **Verified sources only.**
Every answer is drawn from The Tokenizer's own legal archive, not general web data.
- 2 **Built for compliance decisions.**
Reliable answers professionals can act on.
- 3 **Clear, structured outputs.**
Dense legal texts become readable, searchable insight.

RESULTS

Regulatory research, before and after

DIMENSION	BEFORE	WITH TOKEN REGRADAR
Access to regulations	Time-consuming manual research	Real time, across 80+ jurisdictions
Navigating the database	Complex and hard to search	Searchable answers in seconds
Answer reliability	Depends on the researcher	Hallucination-free, source-grounded
User experience	Conventional search	Clear, structured outputs

Token RegRadar now serves law firms and a wide range of digital assets professionals, and has become a benchmark for clarity, reliability and speed in regulatory research.

Based on our huge database, which we have built up over the past three years, and in close cooperation with CustomGPT.ai, we have launched this amazing regulatory service, which both law firms and a wide range of industry professionals in our space will benefit greatly from.

Michael Juul Rugaard

CO-FOUNDER AND CEO, THE TOKENIZER

WHY IT WORKED

Anti-hallucination. Essential for legal trust.	Clear insights. Legal text made searchable.	Domain fit. Tailored to regulatory work.	Scalable. 20,000+ sources and growing.

ABOUT CUSTOMGPT.AI

CustomGPT.ai is a no-code platform for building AI agents that answer only from an organization's own content: documents, websites and knowledge bases. Every answer is grounded in verified sources with citations, and the platform is SOC 2 Type 2 and GDPR compliant. Organizations use it for customer support, internal knowledge search, website chat and more, across help centers, apps and the API.
